

Own a Vehicle?

If you live in **Boone, Campbell, or Kenton** County, you will need an emissions test before registration renewal. All motorists have a three-month testing period.

Odd-model year vehicles with November 2003 renewals may test between September 2, 2003 and November 29, 2003.

Odd-year models have odd-year deadlines; even-year models have even-year deadlines.

If pollution-control equipment has been disabled, your vehicle will be rejected.

Watch your mailbox for a test notice. It will come three months before your registration expires.
